Honors Program
Articulation Agreement Between
St. Mary’s College of Maryland and
Prince George’s Community College

This agreement between St. Mary’s College of Maryland (St. Mary’s) and Prince George’s Community College (Prince George’s) establishes a program in which mutually approved students graduating from Prince George’s will be admitted to St. Mary’s. The arrangement is conditioned by the following agreements:

1. Prince George’s and St. Mary’s agree that certain students will benefit from admission to St. Mary’s at the completion of their associate’s degree. Both institutions will seek to identify and advise students of the potential benefits of this program.

2. Students who graduate from Prince George’s with an A.A. or A.S. degree and a Citation in Honors (signifying completion of five or more honors courses and a quality point average of at least 3.25) will be admitted to St. Mary’s upon their request in the semester following completion of all degree requirements from Prince George’s.

3. Students who graduate in good standing from Prince George’s and who are members of Phi Theta Kappa are eligible for a St. Mary’s Phi Theta Kappa scholarship. All transfer students to St. Mary’s are considered for a St. Mary’s Transfer Student Scholarship on a competitive basis.

4. Prince George’s and St. Mary’s will develop and jointly approve advising materials, including an articulation of course work at Prince George’s that will satisfy general education and major requirements at St. Mary’s. A student receiving an A.A. or A.S. degree from Prince George’s will have satisfied all lower-division general education courses required by St. Mary’s. However, it is understood that some majors at St. Mary’s require specific courses at the lower level, which may not have been included in the student’s course of study at Prince George’s.

5. Prince George’s and St. Mary’s will provide advisement for students to assure a seamless transition from Prince George’s to St. Mary’s.

Therefore, on this 30th day of April, 2002, the signatures of the presidents of Prince George’s Community College and St. Mary’s College of Maryland confirm that the two institutions have accepted the conditions set forth above.

Dr. Ronald A. Williams, President
Prince George’s Community College

Dr. Jane Margaret O’Brien, President
St. Mary’s College of Maryland
