RFP 23-03 Data Dictionary Portal Q&A

1	Whether companies from Outside USA can apply for this? (like, from India or Canada)	Currently PGCC is not doing business with vendors that are overseas.
2	Whether we need to come over there for meetings?	The College is open to on-site and/or virtual sessions as appropriate to support the proposed implementation strategy.
3	Can we perform the tasks (related to RFP) outside USA? (like, from India or Canada)	The College prefer that all tasks are performed in the US. Any task performed outside of the US must be clearly identified in the proposal. The College does business with Canadian companies, not overseas.
4	Can we submit the proposals via email?	Yes, proposals must be sent to the Procurement Officer(s) named in the RFP
5	We are an MBE/DBE/SBE and I was also wondering if there was going to be a list of vendors who are participating in this bid in case of any partnering opportunities?	We will make the list of vendors public. However, if your firm is an MBE prime contractor, you are not required to partner with another MBE vendor.
6	Are there additional appendices related to this specific solicitation available online? Under solicitation 23-03, only PGCC Systems Overview Appendix D was listed	Appendix D has been updated and is included in this Amendment.
7	Who is the current provider managing your current data dictionary?	We do not currently have a data dictionary platform.
8	Can we see and have access to your existing product and will we be able to retrieve information from it? If not, will this need to be built from scratch?	We do not currently have a data dictionary platform.

RFP 23-03 Data Dictionary Portal Q&A

9	Which specific modules are you utilizing in Ellucian Colleague?	We have implemented the following Colleague modules: Core, Student, Finance, Human Resources.
10	Can we get specific modules/products used for each system listed on Appendix D?	See updated information in Appendix D.
11	5. Will we have a designated resource(s) (power users) to work with our development team in retrieving metadata, and who has a good understanding of both the business logic for each system and PGCC?	We have a project team of functional users who are familiar with the products.
12	6. How many custom tables do you have in Colleague?	90
13	7. Can you identify which systems are systems of record? a. HR, Admissions, Alumni and etc...	Colleague is generally the system of record. Refer to Appendix D for system information.
14	8. Which systems is idata connected to?	We are not using iData.
15	9. Will we have access to the idata database?	We are not using iData.
16	10. Which systems are on the cloud and which systems are on premise?	See updated information in Appendix D.
17	11. In section 1.1.4 & section 2.2, it was stated that the client is expecting us to provide screenshots of the dashboard that includes functionality to search and access data assets. How is this going to applicable if we are to built this platform from scratch?	Our preference is a COTS solution provided that has been implemented within higher education.

Note: The systems on this list are currently used at Prince George's Community College. This list is not all-

System (Company) Name	Colleague Data Feed to/from/both	Product Name	Version
	n/a	Colleague (CORE, ST, HR, CF)	R18
