

Strengthen Your Business Credit

Who's the CFO in your company?

VirtualCFO

As you build your business to scale, the role of a Chief Financial Officer (CFO) becomes critical to sustain growth. The VirtualCFO program provides local, small and minority business enterprises the tools and resources needed to use financial data to make sound financial decisions that will help your business grow, expand and succeed.

The VirtualCFO program uses a digital badging system to affirm that your business demonstrates solid financial principles and practices. Use the VirtualCFO program to help you strengthen your business credit and build a winnable enterprise.

OneSource Consulting, LLC a full service management firm, in conjunction with PGCC Center for Entrepreneurial Development, assist local small businesses with improving their financial management and organizational strategies. Our goal is to empower local business owners with knowledge and resources to plan for financial success.
